Summary

Mobile App Developer with **6+ years of experience** in building high-performance mobile applications using **Flutter, FlutterFlow, and Android (Java)**. Skilled in **custom FlutterFlow development**, **Firebase backend integration**, and **cross-platform app deployment**. Proven ability to deliver **scalable, efficient, and user-friendly solutions** while maintaining high code quality and client satisfaction.

Experience

Nextwave Infotech   **Aug 2019 - Present**

Worked at **Nextwave Infotech** for over **6+ years** as a **Mobile App Developer**, contributing to the development of **Favichat**, a feature-rich social media platform designed for **US-based celebrities**. The application offered advanced social networking and monetization features, including **PayPal payment integration**, **real-time chat**, and **premium content access**. Focused on delivering **high-performance, scalable, and seamless user experiences** tailored for high-profile users.

Education

Shree Swami Atmanand Saraswati Institute of Technology, Surat   **2015 - 2019**
B.Tech/B.E.   Computer Engineering

Projects

On-Demand Service Booking App (Flutter + Firebase)

- Developed a cross-platform **on-demand service app** (similar to UrbanClap) using **Flutter**
- Implemented **real-time booking, service provider assignment, and live status tracking**
- Integrated **Firebase Authentication, Firestore, Cloud Functions, and FCM notifications**
- Added **in-app payments**, promo codes, and order history
- Optimized app performance and reduced load time by **30%**
- Deployed apps to **Google Play Store & Apple App Store**

Tech Stack: Flutter, Firebase, REST APIs, Stripe/Razorpay, Google Maps

Healthcare Appointment & Telemedicine App

- Built a **HIPAA-compliant healthcare app** for patient-doctor appointments
- Implemented **video consultations**, appointment scheduling, and e-prescriptions
- Used **Firebase + custom REST APIs** for secure data handling
- Enabled **role-based access** for doctors, patients, and admins
- Improved scalability to support **100K+ active users**

Tech Stack: Flutter, Firebase, WebRTC, Node.js APIs

E-Commerce Mobile App (FlutterFlow + Custom Code)

- Designed and developed a full-featured **e-commerce app** using **FlutterFlow**
- Implemented **custom Dart code** for advanced cart logic and checkout flow
- Integrated **Firebase backend**, order tracking, and push notifications
- Added **admin panel** for product and order management
- Increased conversion rate by **20%** through UX optimization

Tech Stack: FlutterFlow, Flutter (Custom Code), Firebase, Payment Gateway

Skills

Frontend Development

Flutter , FlutterFlow (Custom Widgets & Actions) , Android (Java) , Responsive UI Design , Material Design & Cupertino ,Widgets State Management (Provider, Riverpod, Bloc)

Backend Development

Dart , Firebase (Authentication, Firestore, Realtime Database) , REST API Integration , Cloud Functions Node.js (Basic)

Cloud & Backend Services

Google Play Store & Apple App Store Deployment , CI/CD Basics ,App Versioning & Release Management , Crash Reporting & Monitoring (Firebase Crashlytics)

Databases

Cloud Firestore , Realtime Database , SQLite

Tools & Version Control

Git, GitHub, Bitbucket , Postman
